## Frequently Asked Questions

### Is there any reason I couldn't be treated?

Things that could prevent you from treatment are: fever; uncontrollable/abnormally high blood pressure; uncontrollable/abnormally high blood sugar; or excessive bleeding in the past.

### When should I go to ArMOM?

The doors will open at 6 a.m. People usually begin lining up much earlier.

- Patients will not be let in the building before 6 a.m. No exceptions.
- Folding chairs and blankets are allowed. You will not be able to put them in your car and will have to carry them with you all day.
- Tents are not allowed.

### If I am under 18, do I need a parent or guardian present?

Yes. All children must be with a legal guardian until treatment is done. The guardian cannot be treated the same day as his or her children unless there is another adult to watch the children.

### My entire family needs to be seen. Is that possible?

Yes. A guardian must be with children under age 18 at all times.

### Do I pay for any services?

No. This is completely free thanks to the support of our volunteers and sponsors.

### Is there a limit on how much treatment I can receive?

Due to limited supplies, time and volunteers, we are limited to the amount of treatment we can provide each individual. Our first priority will be to treat your critical dental needs.

### Will there be translators?

Spanish translators will be available.

### What should I take to ArMOM?

You should take

- **A list of your current medications.**
- **Enough baby supplies for a full day.**
- Possibly a book or magazines for while you are waiting.
- **No concealed weapons** are allowed.

Take these items with you in line; do not leave them in your car. Once you enter the building, you cannot leave to go back to your car.
